

BACKLIGHT TUTTALUCE

La versione TUTTALUCE può essere installata sia verticalmente sia orizzontalmente (ma non è calpestabile). La sorgente luminosa interna ai nostri pannelli è il LED; è possibile richiedere un'illuminazione monocromatica (nelle varie tonalità di bianco o colorati) o un'illuminazione dinamica (cambio colore RGB).

The TUTTALUCE version can be installed both vertically and horizontally (but it is not walkable). LED is the light source inside our panels; it is possible to require a monochromatic lighting (in the various shades of white or colored) or a dynamic lighting (RGB color change).

BL01

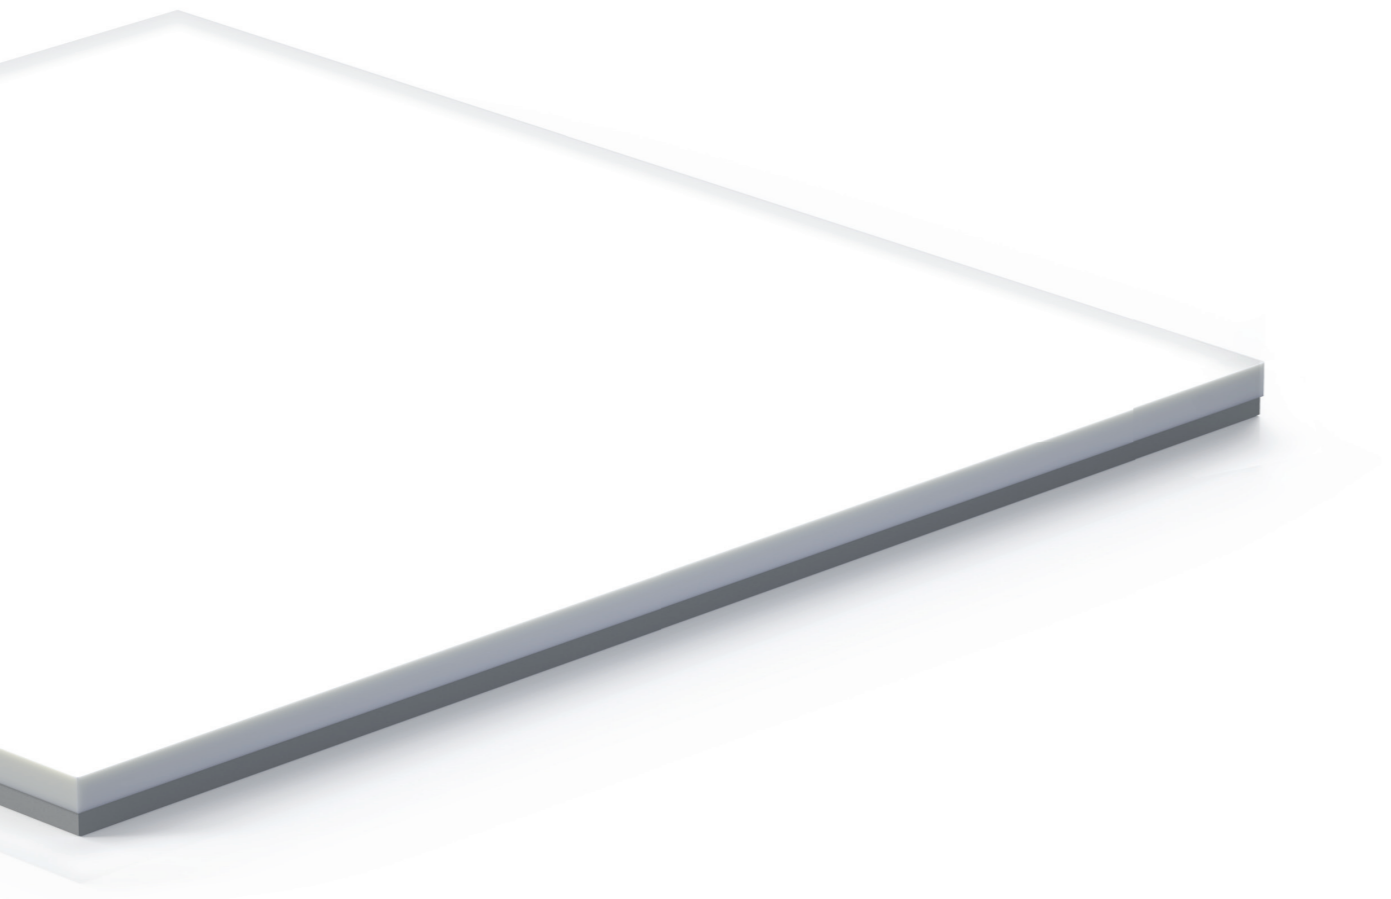

Materiale: -PMMA colato opalino + trasparente – Profilo alluminio
Material: -Opal + transparent cast PMMA – Aluminum profile

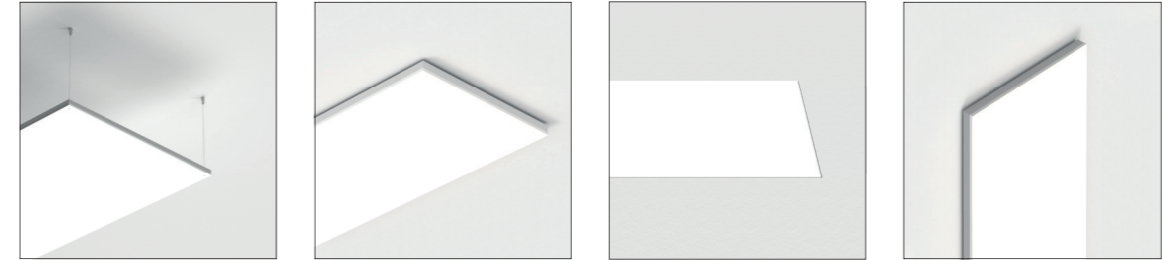

Sorgente: LED
Source:

Finitura: Alluminio anodizzato / bianco
Finishing: Anodize aluminum / white

Tipi di installazione:
Type of installation:
